

Position: Senior Plans Examiner	AFSCME Union
Department/Site: Community Dev./Building Division	FLSA: Non-exempt
Evaluated by: Building Official	Salary Grade: 42

Summary

Receives and reviews building plans for compliance and conformance with applicable codes and regulations governing the construction or alteration of commercial and residential structures. Sets up and maintains computer aided systems for monitoring work in progress. Conducts site inspections.

Distinguishing Career Features

The Senior Plans Examiner is the second level in a two-step career path for the review of building plans. The Senior Plans Examiner requires an Associates Degree and “B” level certification in plans examination. Advancement to Plans Examiner II requires “A” level Plans certification plus others as stated in the qualification statement.

Essential Duties and Responsibilities

- Reviews permit applications and construction documents for an array of building uses and construction types. Verifies adequacy of documents after pre-planning, development, or other preliminary reviews. Sets up initial descriptions outlining scope-of-work. Review construction methods for the type of occupancy.
- Conducts separate, yet concurrent reviews of construction documents for buildings to evaluate and determine compliance with the state building codes and other regulations, including standards for structural adequacy, energy conservation, and accessibility.
- Reviews design feasibility and construction options at schematic design phase. Advises architects/design professionals, owners, and others on code minimum requirements and identifies alternative options to meet code intents during all phases of the design process. Assists with solutions to plan review issues and code deficiencies; conducts on-site visits to verify conditions.
- Coordinates and facilitates reviews in conjunction with other agencies such as but not limited to Fire departments.
- Answers questions and interprets complex code, legal, technical, and procedural concepts orally, graphically, and in writing to a diversity of technical and non-technical people with a wide range of expertise and attitudes. resolves conflicts.
- Consults with a wide range of professionals and non-professionals on compliance matters and stages of the development review process.
- Sets up construction projects and other projects subject to a step-by-step inspection and clearance process for computer-aided access, estimation of inspection milestones, and analysis of work-in-progress.

- Maintains up-to-date knowledge of trends in construction methods and materials and changes in codes.
- Sets up and maintains files and data including statistical data on permitting activity.
- May serve as a point of contact for technical support and updating of special computer-aided applications and databases used by the department.
- Performs other duties as assigned that support the overall objective of the position.
